

Grenada Fire Protection District
Minutes for Emergency Meeting on February 17, 2023

Present: Bill N., Sonyua, Bill H, Lisa

The meeting was called to order 6:20 pm

Lisa called GSRMA in regards to building damage. They put her in contact with their insurance adjuster, Fred Yancey. He came up and inspected the building. Took a look around the whole building and took pictures. Lisa showed him the problem areas, and found more damage than originally thought. Fred said the ceiling fans will need to be replaced and the heating/cooling unit in the ceiling will have to be pulled and looked at. Until then, don't use it. She showed him the kitchen. Found damage in the bay above the water tender. Also found ceiling damage in the storage area behind the office. Lisa later crawled up and felt moisture in the ceiling. Couldn't explain floor. With all the wet weather coming through, he said we need to get the building fixed as quickly as we can between storms. Fred said that we need to have someone through Emergency Mitigation Services (EMS) come look at the building and determine how wet everything is before repairs can be done. Fred gave Lisa a contact for Bob through Northwest Restoration.

Bill H made a motion to declare an emergency situation in regards to water & wind damage to building, second by Sonyua. Carried.

Lisa met with Bob. The ceiling in the kitchen was still moist, the south wall was fine and didn't show moisture. The floor shows 100% moisture and he couldn't explain why. Bob said that the outlet on the south wall would need to be replaced since there was moisture found in that area. Said the same things that Fred did. Both said we need to find where the water is coming from, and how, then fix the problem right.

With info received, will reach out to a couple contractors to determine who can start the job quickly and do it correctly to fix the problem.

Sonyua made a motion to adjourn the meeting, second by Scotty. Carried.

The meeting was adjourned at 6:50 pm

Respectfully Submitted,
Lisa Mott
