

Grenada Fire Protection District
Minutes for **EMERGENCY MEETING** on November 26, 2025

Present: Scotty, Randy, Bill, Erik, Lisa

The meeting was called to order 4:32 pm

Public Comment – None

Building Damage

Engine 316 hit the wall while backing in after training. The blocks got moved. The engine hit the wall with the ladder, top lights, grab bars and bumper and pushed the wall into the meeting room, damage to drywall on both walls. Possible damage to south wall as there are gaps around windows and the windows are crooked when open. Shoved the drop ceiling making it hard to pop out panels in ceiling, one light fixture is also bowed.

Lisa emailed insurance company pictures Friday night after she found the damages. Insurance company emailed her back Saturday and she submitted the Property Loss Notice. Fred, the insurance adjuster, came to look at the building and declared it an emergency due to catastrophic damages and other unknown damages seen at this time. Needs to investigate the south wall.

Bill made a motion to approve Resolution 25-10: Declaring an Emergency for Fire Hall Damaged Wall, second by Erik. Carried.

Per the insurance adjuster's request, Lisa has already been in contact with contractors to come look at the building and submit quotes.

Bill made a motion to reimburse Lisa Mott for the baseboards that were purchased for the Fire Hall meeting room, second by Erik. Carried.

The meeting was adjourned at 4:39 pm

Respectfully Submitted,

Lisa Mott
